

What Sets Dahle Apart

Features and Components of a Dahle Shredder

Solid Cutting Head

A solid block of German Solingen Steel is milled to create each cutting cylinder.

State-of-the-Art Electronics

Provides dependable control of all operational features including Automatic on/off, Automatic Reverse, as well as audible and visible indicators for Door Open, Bag Full and Overfeed.

Metal Strippers

Our rugged steel strippers keep the cutting mechanism free of shredded paper.

Control Panel

Soft touch buttons and LED status indicators ensure you have total command of all shredder functions, including the ability to choose between automatic and manual operation.

All Steel Frame

Keeps the cutting cylinders in perfect alignment for optimal performance.

Chain Driven

Provides slip-free power to the cutting mechanism for maximum throughput.

Shock Mounts

The shredding module sits on rubber mounts to isolate noise and vibration from the cabinet, making Dahle shredders some of the quietest on the market.

Thermally Protected Motor

Thermal protection prevents damage to the motor from overheating.

Wooden Cabinet With Casters

Attractive wood cabinets help reduce noise and fit in with any office decor. Rolling casters make it easy to move your shredder from office to office.

Door Open Interlock

Prevents the shredder from operating with the door open. This safety feature is found on all models.

Shred Box

Easy to empty shred box can be lined with our disposable shred bags for added convenience in emptying your shredded material.
